

Our Mission, Our History

Regional Network of Programs, Inc.

(RNP) is a private, non-profit behavioral health provider serving Connecticut. Its primary mission is to serve the economically disadvantaged/afflicted person by using a variety of individualized and diversified approaches to person-centered care.

Founded in 1972, RNP has grown to meet the needs of the community. RNP employs a highly trained, diverse and qualified staff of professionals to provide case management and treatment services for individuals with substance abuse, mental health and / or housing needs. All services are based on a Recovery Model of Care which individualizes treatment to support and encourage an individual's recovery and increased stability.

Today, the Organization's scope of services provide a continuum of care in the following areas: medicated-assisted treatment, individual and group drug and alcohol counseling, substance abuse and mental health education, information and referral, a variety of counseling programs for youth and adults; facilities for individuals recovering from psychiatric disorders and a wide range of housing options for the homeless.

Outpatient Services

Regional Counseling Services provides traditional outpatient services. These sites are licensed and accredited to provide substance abuse treatment. One site holds an additional license to provide psychiatric treatment. Counselors are experienced and certified in dealing with substance abuse, mental health, gambling and co-occurring disorder issues. In addition, they provide assessment, information and referral.

Persons, who wish to receive help with substance abuse and mental health issues, and who are adults over the age of 18 may be seen at either 480 Bond Street or at 1549 Fairfield Avenue. The offices are open Monday through Friday from 9:00 AM to 9:00PM. Services include individual, family, and group therapy during the day or evening as well as an intensive outpatient program which meets 9 hours per week.

Services for substance abusing adolescents are available at 1549 Fairfield Avenue in Bridgeport. Generally, an adolescent meets weekly with his / her counselor for an individual, a family or a group session.

Medication-Assisted Treatment

Center for Human Services and the Kinsella Treatment Center are CARF accredited, Department of Public Health (DPH) licensed treatment programs for opiate addicted persons utilizing prescribed methadone and Suboxone®. A six-month ambulatory detoxification program is also available.

Individual, family, and group counseling are offered along with psychological evaluations and other support and referral services.

CHS and KTC offer a variety of specialized groups, including: Seeking Safety, Anger Management, Multicultural, Pregnancy, Men's, Women's, Family, Transitional, Cocaine Cessation, Relapse Prevention, Creative, Substance Abuse and Changes in Recovery.

Confidential HIV antibody testing is offered along with HIV and infectious disease education.

Research projects are utilized by clients to continue to provide them with different alternatives for change.

To meet the needs of all clients, CHS and KTC are open from 6:00 AM—7:00 PM.

Residential Services

RNP is committed to providing safe, affordable, supportive housing for individuals who are homeless and individuals who are living with psychiatric and substance use disorders, including individuals living with HIV. RNP operates a continuum of housing options which provide specialized, supportive housing to 150 individuals on a daily basis.

Prospect House operates three residential programs, which include an emergency shelter for people who are homeless, one permanent housing program with subsidized rental agreements and one transitional housing program, specifically designed to meet the needs of individuals living with co-occurring disorders (psychiatric and substance use).

RNP operates two group homes which provide housing, extensive psychiatric rehabilitation services to each of the 16 individuals served. The Supervised Apartment Program provides comprehensive case management services to 36 individuals.

RNP operates two 30-day, inpatient substance abuse facilities. Horizons has the capacity to serve 15 individuals with a primary diagnosis of substance dependence. New Prospects has the capacity to serve 20 individuals and is uniquely positioned to offer gender-sensitive, co-occurring enhanced intensive residential treatment.
